

Community Grants Program - Round 1 2015/16

Conservation Grants

Grant ID	Organisation Name	Project Title	Project Description	Approval Amount
SUCCESSFUL APPLICATIONS				
CS-161-004	Southern Moreton Bay Islands Coast care	SMBI Mangrove and Saltmarsh Project	Provide a preliminary assessment of the condition of tidal wetland habitats (mangrove and saltmarsh) on Russell Island to inform future on-ground rehabilitation projects. Grant funds to cover desktop analysis, boat hire and pilot, video assessment, community forum venue and catering, citizen science tidal wetland monitoring program training manuals etc., turbidity probe hire, equipment admin and advertising.	\$8,966.00
CS-161-001	Conservation Volunteers Australia	Increasing Habitat for the Richmond Birdwing Butterfly in the Redlands area	Project to build on previous efforts to increase the habitat of the Richmond Birdwing Butterfly through planting of the Richmond Birdwing Vine. This is designed to increase the plantings to provide the best habitat for the butterfly to start to re-populate. CVA will work with local volunteers and landholders to remove invasive species including lantana, madeira vine and other weeds.	\$10,000.00
CS-161-002	Coochiemudlo Island Coastcare Inc.	What lives in Coochiemudlo's Melaleuca Wetlands?	To conduct fauna surveys in Coochiemudlo Wetlands. An expert consultant will be engaged to undertake seasonal wildlife surveys targeting birds, mammals, frogs, reptiles and ground insects.	\$10,000.00
CS-161-006	Wildlife Preservation Society Qld	Spotting Gliders in the Redlands: A Nocturnal Survey of two Redlands Conservation Areas	To build on previous glider monitoring programs within the Glider Conservation Area and the Bayview Conservation Area to monitor the presence of glider species within these two sites through active (Spotlight) searches.	\$5,750.00

CS-161-005	Vicki Kelleher	Heart Scape	A video-story telling and sharing project focusing on felt-experiences and remembrances of being in the natural elements as a child/young person across Quandamooka country. Participants will be invited to reflect on special places they sought out, visited or discovered and to share stories, memories, images and photos and creative work based on this connection. Grant funds will pay artist expenses and professional fees including the creation of accessible social media platform to share the stories. This story telling project will be archived for the future.	\$7,800.00
CS-161-003	Lisa Ludkin	Rehabilitating orphan and injured gliders and possums	Purchase of flight aviary, garden shed, and wheelbarrow for wildlife carer	\$2,492.00
				\$45,008.00
