

# Community Grants Program

## 2024/25 – Capital Infrastructure Grant

### Awarded Applications

Grant ID	Organisation Name	Project Title	Approval Amount
MC-2425-003	Redlands Sea Dragons	<u>Installation of Roof Flashing for Enhanced Weather Protection at Clubhouse</u> Installation of roof flashing at the Dragon Boating Club's clubhouse at Redland Bay. The roof flashing will prevent rainwater ingress, ensuring the clubhouse remains a safe and comfortable space for members and visitors year-round.	\$ 3,300.00
MC-2425-008	Russell Island Bowls Club Inc.	<u>Construct a New Covered Deck</u> Extend the outdoor dining and event space by building a new, all-weather, hardwood, covered deck adjacent to the western end of the bowling green. This new area will allow the club to cater for larger bowls competitions and community events with more interactivity between the green and the public area. It will enable the club to cope with increased demand for social activities and services year-round, providing shelter from the elements. The new structure will also provide for a new entrance to the club to be built, increasing security, and making the entrance more user friendly.	\$ 48,700.00
MC-2425-012	Tingira Boat Club Inc	<u>Deck Extension</u> Provision of materials and construction of an extension to the existing wooden deck within the current roofline. It also involves relocating the existing stairs to the front "shore side," as well as supplying and installing handrails and stainless-steel wire along the deck edges.	\$ 10,000.00
MC-2425-014	The University of the Third Age Redlands District Inc (U3AR)	<u>U3A Redlands Learning Centre - Kitchen Fit Out.</u> Fit out of the kitchen in the new U3A Redlands Learning Centre. It is part of Stage 4 in the final stage of the construction of the Learning Centre and includes purpose built fabrication of kitchen cabinetry and benches with delivery and installation.	\$ 8,438.19
MC-2425-017	Birkdale Baptist Church	<u>Sunsafe Outdoor Community Space (SOCS)</u> Birkdale Baptist has already developed an outdoor kitchen on the existing patio near Willard's Farm. The Church has recently invested in new café styled chairs and tables and are currently upgrading an adjacent playground. Use of this patio area is limited as the area is covered in old shade cloth sails which is reaching the end of its functional life. The area is unlit and open to the elements.	\$ 10,000.00
MC-2425-018	Point Lookout Bushcare Inc.	<u>Replacement Storage Shed</u> Build a durable standard steel garden storage shed (3.1m x 3.1m) to replace the existing shed, which is in poor condition and suffers from water ingress. The funding covers the transportation of the new shed to the Point Lookout Nursery site, as well as hiring a licensed contractor to demolish the old shed, install a concrete slab (4m x 4m), perform related landscaping, and construct the new shed.	\$ 9,630.00
MC-2425-021	Coochiemudlo Island Coastcare Inc	<u>Construction of Coochiemudlo Island Coast care's Environmental Hub</u> Coochiemudlo Island Coast care will construct a 9.7-long by 8-metre wide Colorbond shed to be used as an Environmental Hub, storage facility and base of operations, adjacent to one of Coochiemudlo Island's key activity precincts. This Hub will be used to safely store trailers & equipment; complete administration tasks and support environmental work promoting best management practice and stewardship of the island's natural environment.	\$ 44,425.16

MC-2425-031	Rotary Australia World Community Service Ltd - Trading as RAWCS Northern Region	<u>Renovation works to Buildings E and H</u> Building E - Replace awnings with a closed in shed attached to the western wall of the building construct an external concrete for container set down adjoining the new shed. Building H - Install a concrete disabled car park and ramp to access the building. Renovation works to ensure disabled access through existing doors and convert an existing toilet into a disabled accessible unisex sanitary compartment	\$ 41,986.65
MC-2425-032	Capalaba Bulldogs Football Club	<u>Capalaba Bulldogs Football Club Infrastructure Upgrade Project-Media Tower</u> Installation of a state-of-the-art media tower that will feature a high-resolution digital display for real-time game updates, live streaming of matches, and promotional content for events. The media tower will serve as a dynamic platform to broadcast game highlights, player interviews, and community messages, fostering a more interactive and immersive experience for fans. A media tower is required by Football Queensland for compliance to maintain an elite level football license.	\$ 14,518.00
<b>Total Capital Infrastructure Support Funding</b>			<b>\$190,998.00</b>
