---

**PURPOSE**

This report presents to Council the amendment of the adopted 2016/2017 Fees & Charges Schedule with regards to the timing of the application of Generic Traffic Controls Permits effective date to be moved from 1 July 2016 to 1 October 2016 and to amend the wording used to describe fees and charges under Domestic Plumbing and Drainage (Compliance Permit – Drainage Scrutiny) by removing the text “or Alteration of house drainage” for four or more fixtures.

**BACKGROUND**

The Fees & Charges Schedule for 2016/17 was adopted in a closed General Meeting on 25 May 2016. Following the meeting, further information has come to light and some minor changes are proposed on the attached document.

**ISSUES**

The fees and charges presented to Council contains the following amendments:

Generic Traffic Control Permits

Fees and charges for the new financial year are not ratified by Council until close to the end of the financial year and do not go live in the database until 1 July 2016.

The forms for these permits are not published online as they are limited to Council’s contractors and/or Energex. As such they are sent out prior to the end of the Financial Year and a decision needs to be made as to whether they are:

- Sent out prior to the Fees & Charges being ratified with the old fee on them. The issue with this may be that the permits come in after 1 July 2016 resulting in the fees being incorrect at the time of processing requiring either a dispensation to charge the old rate or a call to the contractor to authorise the new charge or;
- Sent out prior to the Fees & Charges being ratified with the new fee on them. Two issues may be present in this instance firstly, any applications received prior to 1 July 2016 cannot be processed as the Property and Rating charges cannot be updated until 1 July or secondly, if Council does not ratify the new fee the information on the form it will then be incorrect and the contractors

will need to be contacted with the correct fee information to authorise the new charge.

Each of the above could contribute to a situation where a permit for the same time frame may be charged at two different rates to two different contractors.

Therefore it is proposed to amend the wording in the adopted Fees & Charges Schedule 2016/17

from

*“Application fee for Traffic Control Permit or Renewal of Traffic Control Permit”*

to

*“Application fee for Traffic Control Permit or Renewal of Traffic Control Permit (Permit period 1 October 2016 to 30 September 2017)”.*

#### Domestic Plumbing and Drainage, Compliance Permit – Drainage Scrutiny

Any application for plumbing alterations requires the payment of a fee. In order to create consistency in interpretation and accurately reflect the cost recovery for issuing permits for plumbing alterations, it is proposed to amend the wording in the adopted Fees & Charges Schedule 2016/17 by removing ‘or Alteration of house drainage’ for four or more fixtures,

from

*4-7 fixtures or Alteration of house drainage*

*8-11 fixtures or Alteration of house drainage*

*12-15 fixtures and greater or Alteration of house drainage*

to

*4-7 fixtures*

*8-11 fixtures*

*12-15 fixtures.*

## **STRATEGIC IMPLICATIONS**

### **Legislative Requirements**

Under Section 262(3)(c) of the *Local Government Act 2009*, Council is able to charge for services and facilities it supplies which are not covered under Section 97(2) of the *Local Government Act 2009*. Unlike regulatory charges, Council has the option to factor in a margin for providing a non-regulatory charge.

Council is required to approve and publish its annual fees and charges schedule.

### **Risk Management**

#### Generic Traffic Controls Permit

If not rectified, a situation where a permit for the same time frame may be charged at two different rates to two different contractors.

#### Domestic Plumbing and Drainage

Removes inconsistency and boosts accuracy in the cost recovery for issuing permits for plumbing alterations.

### **Financial**

---

Nil impact is expected on Council's budget for 2016/17.

### **People**

Nil impact expected as the purposes of the attached report is to provide an updated schedule of Fees & Charges for 2016/17.

### **Environmental**

Nil impact expected as the purposes of the attached report is to provide an updated schedule of Fees & Charges for 2016/17.

### **Social**

To ensure the fair and equitable management in processing permits Council issues without causing additional and unnecessary costs to the holder.

### **Alignment with Council's Policy and Plans**

The amendment of the Fees & Charges Schedule 2016/17 aligns to Council's Corporate Plan 2015-2020 key outcome 8, inclusive and ethical governance.

### **CONSULTATION**

The amended fees and charges have been prepared in consultation with the Chief Executive Officer, Group Manager City Infrastructure, A/Principal Adviser Business Planning and Improvement, Chief Financial Officer and Senior Management Accountant Business Partnering.

### **OPTIONS**

## SCHEDULE SUPPORTING INFORMATION

### 1. REFUNDS

#### 1.1 Refund Processing Fee

In those instances where Council is refunding part or all of a fee, a refund processing fee is payable as detailed in the table below (except in the case of Council error or for Dog or Cat Registration refunds as per item 1.3 below):

Refund Amount	Refund Processing Fee
\$0 - \$24.99	*Not applicable
\$25 - \$199.99	50% of refund amount
\$200 or greater	\$100

\*Note: No refunds will be issued for amounts under \$25 except in the case of Council error.

#### 1.2 Refund of Fees for Withdrawn Applications

If the application is withdrawn before it is decided by Council a percentage of the application fee will be refunded depending on the assessment stage reached at the time of the withdrawal:

Stage of Application	Refund Percentage
Application Stage	80%
Information and Referral Stage	50%
Notification Stage	20%
Decision Stage	Nil

Note: All requests to withdraw applications must be made in writing.

Prior to payment the total amount of the refund to be paid will be reduced by the amount of the refund processing fee as set in item 1.1 above.

#### 1.3 Refund of Fees for Dog or Cat Registration

A pro rata refund is available for dog or cat registrations under the following circumstances:

- Death of an Animal
- Relocation from City Area
- Animal is given away

Documented evidence to support the refund request is required.

Note: Dog or Cat Registration refunds are exempt from the Refund Processing Fee.

### 2. PHOTOCOPY FEE (for Local Laws and Policy Documents only)

Photocopying fees are used consistently across Redland City Council and the cost per page is outlined on page 1, Redland City Council Fee Schedule Supporting Information.

Copies of a Local Law (including Certified) and Policy Documents	Cost
6 pages or less	Cost per page as per Redland City Council Fee Schedule Supporting information, page 1
7 pages or more	\$7.00

### 3. DISCRETIONARY FEE CALCULATIONS AND DISCOUNTS

#### 3.1 Discretionary Fee Reduction

Requests to determine an appropriate fee or reduce the application fee when a strict application of the scheduled fee is considered unreasonable or inappropriate considering the work required to carry out the assessment of the application, or where an appropriate fee has not been set, may be approved upon application.

Requests are required to be made in writing and accompanied by relevant supporting documentation. Should the delegated officer be unable or unwilling to determine a reduced fee at the time of lodgement (for example, in the case of impact assessable applications where the potential for submissions is a factor in consideration of any discount), the applicant is to pay the scheduled fee and any discount will be determined when the application is decided, at which time any part-refund will be paid. In determining requests for fee discounts, the delegated officers are to consider and document the following factors:

1. Level of assessment – including applicable zones and overlays;
2. Likelihood of submissions objecting to the proposal;
3. Intensity, scope and scale of proposed development;
4. Number of referral agencies and complexity of referral triggers;
5. Complexity of the technical requirements in support of the applications;
6. Anticipated workload;
7. Political and community interest sensitivity; and
8. Total calculated fee according to schedule compared with fees for similar applications in Redland City Councils schedule and other Councils.

***Note that all discounts and fee waivers are to be recorded in the Fee Discount Register maintained by the General Manager Community and Customer Services Department.***

#### 3.2 Missing Fee Calculation

The General Manager Community and Customer Services or the Group Manager City Planning & Assessment may determine an appropriate fee for a use or service not specified in the fee schedule.

#### 3.3 Bona-fide Charities and not for Profit Organisations

A discount/rebate of 25% will be applied for bona-fide charities and not for profit organisations which meet the following criteria:

1. Endorsed as a charity by the Australian Taxation Office; or
2. An incorporated association under the Associations Incorporations Act 1981 which is not a club licensed under the Liquor Act 1992; or
3. An incorporated association under the Associations Incorporation Act 1981 which is a club licensed under the Liquor Act 1992, if the applicant:
  - 3.1 Does not have an existing management agreement with another licensed club; and
  - 3.2 Has no more than 20 gaming machines licensed in accordance with the Gaming Machines Act 1991; and
  - 3.3 The applicant is the owner of the premises the subject of the development application.

Supporting documentation confirming the status as an eligible charity or not for profit organisation must be supplied with the application to receive the discount at lodgement.

Note: This discount does not apply to infrastructure charges.

#### 3.4 Accelerated DA applications

##### **Single Dwelling Units (including Secondary Dwellings, Domestic Outbuildings and Home Businesses Accelerated Development Applications)**

A discount of 50% will be applied to the application fee for Accelerated Development Assessment applications for single dwelling units (including secondary dwellings), domestic outbuildings and home businesses complying with the criteria detailed in the ***Accelerated Development Application Kits***. This discount can be applied at lodgement.

##### **Other Accelerated Development Applications**

A discount of 25% (to a maximum of \$5,000) will be applied to the application fee for other Accelerated Development Assessment applications complying with the criteria detailed in the ***Accelerated Development Application Kits***. This discount can be applied at lodgement.

***Note: Completed Accelerated Development Application Kits must be submitted with the application to be eligible. If the application is determined by Council NOT to be eligible for the Accelerated assessment process the application will be considered to be not properly made until the full application fee has been paid.***

### 3.5 Multiple discounts

Where applicants meet the criteria for multiple discounts/rebates, discounts will be applied in the following order:

1. Multiplier for level of assessment;
2. Charity/not for profit organisation; and
3. Accelerated eDA.

Discounts will be applied to the balance of the fee following the application of the previous discount.

## 4. RESUBMISSION OF A LAPSED APPLICATION

### City Planning & Assessment Group

Where a development application for building work, plumbing and drainage work, concurrence, operational work, reconfiguring a lot, or material change of use has lapsed (excluding a lapsed application under s.266 of the *Sustainable Planning Act 2009*) and a new development application is submitted, a 25% discount of the current scheduled application fee will apply. This is subject to the following requirements being satisfied:

1. A new application is resubmitted within 6 months of a previous application lapsing; and
2. The new application is generally consistent with the lapsed application; and
3. There have been no changes to the following:
  - a. Planning Scheme provisions applicable to the proposal;
  - b. Building Act provisions applicable to the proposal;
  - c. Plumbing and Drainage Act provisions applicable to the proposal; and
4. The reduced fee is only applicable on first resubmission of a lapsed application.

Note – This discount does not apply to building document lodgement and inspection fees.
